1 July 1963

MEMORANDUM FOR:

Mr. [redacted] Chief  
Real Estate and Construction Division  
Logistics

STATINTL

SUBJECT:

Recommendations for the Choice of  
Formica Plastic for Cafeteria Tables

1. A couple of months ago you will recall that you were kind enough to invite the Fine Arts Commission to meet with you and Mr. Jones of GSI to discuss what might be suitable color or colors for the replacement table tops in the cafeteria. At that time, Mr. Jones of GSI indicated there was no urgency. I advised that the FAC preferred to await the study then under discussion with GSI on the paint design for the building. It seemed to us desirable that the various colors should be coordinated.

2. However, on 26 June, I believe, you advised that the Formica Corporation had requested GSI to make a decision within two weeks. I promised that the FAC would meet this new requirement and I am, accordingly, forwarding for your consideration the recommendations of the FAC stemming from its meeting on Friday, 28 June.

3. We recommend that the tables accommodating four chairs should be covered with tan linen, 20-C-1, as indicated on the attached folder which you provided for us. We recommend that the powder blue linen, 59-C-38, be used on the tables for two.

STATINTL

[redacted]  
Chairman  
Fine Arts Commission

Attachment: Formica Brochure (Addressee only)
